FROM THE HIGH HIMALAYAN RIDGES TO YOUR TABLE

The philosophy, technology, and rigorous botanical integrity behind every harvest

A Return to Unadulterated Himalayan Nourishment

In an era dominated by hyper-processed grocery staples, chemical bleaching, and artificial food coloring, Nature's Mud was founded with a singular, uncompromising pledge: to deliver food exactly as nature conceived it in the pristine valleys of the Himalayas.

Every fruit, nut, seed, and botanical powder in this catalog originates from fertile high-altitude soils, nourished by mineral-rich snowmelt and clean mountain air. We partner directly with indigenous harvesting cooperatives across Jumla, Mustang, Dolpa, and the fertile plains of Nepal, ensuring fair farmer wages and sustainable regenerative agriculture.

Artisanal Solar Dehydration Facility & Quality Inspection · Kathmandu

The Four Pillars of Botanical Integrity

01 SOLAR DEHYDRATION BELOW 42°C

Conventional industrial dehydrators bake fruit at 80°C to 120°C, destroying heat-sensitive enzymes, vitamins, and bioflavonoids. Our proprietary solar chambers never exceed 42°C, preserving 98% of living enzymatic activity and raw cellular vitality.

02 100% SINGLE-INGREDIENT BOTANICALS

Zero cane sugar, zero sulfur dioxide, zero maltodextrin, and zero synthetic preservatives. When you open a jar of Nature's Mud Beetroot or Avocado Powder, the only ingredient inside is pure, dehydrated beetroot or avocado.

03 INDEPENDENT LABORATORY PURITY SCREENING

Every single batch undergoes testing for heavy metal toxicity (Lead, Cadmium, Arsenic, Mercury), moisture safety (<5%), and microbial limits. We adhere strictly to national food safety guidelines for total family safety.

04 NATUROPATHIC & AYURVEDIC HARMONY

Formulated in consultation with certified holistic wellness practitioners and classical Ayurvedic pharmacopeia. Our foods are naturally hypo-allergenic, gentle on digestive agni, and perfect for baby first solids (6m+) and athlete stamina.

HOLISTIC WELLNESS STANDARDS & FAMILY SAFETY PLEDGE

INDEPENDENTLY VERIFIED · FOOD SAFETY CERTIFIED · NON-GMO · 100% WHOLE FOOD

Nature's Mud champions transparent whole-food nourishment. Rather than synthetic multivitamins or laboratory-synthesized compounds, we advocate for whole-food nutrition where vitamins, trace minerals, and antioxidants exist in their natural organic synergy with dietary fiber and co-enzymes.

Our products are trusted across Nepal by holistic nutritionists, ayurvedic vaidyas, sports fitness trainers, and health-conscious mothers for complementary baby weaning porridge (6M+), post-natal mother rejuvenation, memory vitality, and athletic endurance.

STATUTORY WELLNESS DISCLAIMER:
Nature's Mud botanical foods and functional supplements are pure single-ingredient natural products crafted to support daily nutrition, stamina, and holistic wellness. These products are not intended to diagnose, treat, cure, or prevent any medical disease. Individuals with specific medical conditions, nursing or pregnant mothers, and parents introducing solid foods to infants should consult their qualified health practitioner or holistic nutritionist.

“Let food be thy medicine, and let mountain purity be thy standard.”

Every package bearing the Nature's Mud seal represents an unbroken chain of custody from organic Himalayan growers, through low-temperature solar drying, to hermetic glass and barrier packaging in Kathmandu.

Browse our complete 2026/2027 collection in the following pages organized across 4 dedicated product categories, followed by the complete master verification index and nationwide ordering directory.

THE FOUNDING TEAM · NATURE'S MUD BOTANICALS · KATHMANDU, NEPAL

SOLAR-DEHYDRATED FRUITS & ALPINE BERRIES
