THE HIMALAYAN PURITY MANIFESTO

TRACEABLE MOUNTAIN NUTRITION

OUR PHILOSOPHY & ETHICS

Founded in Kathmandu, Nature's Mud was built with a singular mission: to bring pristine, unprocessed Himalayan superfoods directly from high-altitude smallholder farmers into urban homes with absolute purity.

Most commercial dried fruits and packaged superfoods are treated with sulfur dioxide for bleaching, drenched in liquid glucose syrup, or fried in cheap industrial oils. At Nature's Mud, we operate on 100% pure whole food principles.

- Single-Origin Terroir: Sourced across Jumla (2,400m), Mustang (2,800m), Dang, and the pristine river basins of Nepal.
- Low-Heat Solar Airflow (<42 deg C): Retains natural enzymes (bromelain, papain), raw vitamin complexes, and active antioxidants.
- Zero Additives Guarantee: No sugar, no salt glazes, no sulfur, no starch carriers, and zero chemical preservatives.
- Clean Glass & Barrier Packaging: Preserves medicinal and nutritional potency without microplastic contamination.

OUR 5 FOUNDATIONAL PURITY COMMITMENTS

1. 100% Plant Ingredients - Zero animal derivatives
2. 0 Chemical Preservatives - Natural freshness preservation
3. 0 Added Refined Sugar - Natural unadulterated fruit sugars only
4. Direct Mountain Farm Trade - Fair compensation for Nepali growers
5. Rigorous Laboratory Testing - Heavy metals & moisture compliance

OFFICIAL PRODUCT STORAGE, HANDLING & SHELF-LIFE SPECIFICATIONS

1. Temperature & Sunlight Shielding

Keep all dehydrated fruits, nuts, and glass jars in a cool, dry pantry away from direct sunlight and stovetop heat. Ideal storage temperature: 15 deg C to 24 deg C.

2. Hermetic Air-Tight Seal Preservation

Always push out excess air and pinch the ziplock tightly shut immediately after opening. For glass jars, screw the metal lid firmly to maintain internal aroma-lock seal.

3. Certified Shelf Life (12 Months)

Every Nature's Mud product maintains peak bioactive potency for 12 months from packing. Once opened, consume within 60 days for maximum crispness and enzyme integrity.

4. 100% Unadulterated Whole Foods Notice

Because our powders contain ZERO anti-caking silica or chemical dispersants, slight natural clumping in date or sweet potato powder is completely normal. Simply shake or stir with a dry spoon.
